Data on the Index of Multiple Deprivation is based on estimates provided by the Ministry of Housing, Communities and Local Government and relates to the 2015 release of the index.

Notes: Life Satisfaction is measured on an 11-point scale. The share of people with low life satisfaction is the percentage in each Local Authority who reports their Life Satisfaction to be 6 or less. This is equivalent to the bottom 20% of the sample of respondents in the APS. The results pertain to a sample restricted to respondents of 16 years of age or older. Respondents with earnings in the top and bottom percentile are excluded. Local authorities in the bottom percentile in terms of size are dropped out of the sample. All Local Authorities in the table are in England (N=305).
